

# Year II Covenant

Below we have listed expectations for participation on the part of parents and candidates. These expectations are to ensure this process is of high quality and facilitates experiences of growth. At anytime during the program the Confirmation Coordinator is available to help evaluate and discuss any questions or concerns that the student or the parent may have about the preparation process. Note that if the following expectations are not being met the candidate/family may be asked to reevaluate their participation in the process.

We ask that candidates and their families enter into a covenant understanding of what is required for preparation to receive the Sacrament. Signing the covenant is a symbolic gesture of your openness and willingness to complete the process.

### Candidate Expectations:

1. Candidate will participate in all small group meetings as set by your small group.
2. Candidate will participate in all large group meetings (see calendar).
3. Candidate will participate in Service/Ministry experiences. Candidate will turn in a thought filled Ministry Reflection about their experiences.
4. Candidate will participate in a weekend retreat (either TEC or NET).
5. Candidate will hand in all forms **by deadlines given** (Sponsor Form, Presentation and Enrollment Form, Retreat Date Request Form, Confirmation Seating Request Form).
6. Student will write a letter of request to the Pastor.

### Parent Expectations:

1. Support your teen as they make this journey. Find answers together that your child may have questions with.
2. Help your teen make it to large group, small group and various activities throughout the year that confirmation may be sponsoring.
3. Be an example for your teen. Parents are their children's first and foremost teacher.

### Confirmation Coordinator:

1. To be a resource in answering questions and to support both the parent and the teen.
2. To provide support for small group Catechists and Sponsors.
3. To facilitate all large group gatherings.
4. To provide up to date communication with candidates and families.
5. To provide a quality program which will aide in the Candidates walk toward deepening their faith.

We ask that both the student and the parent sign the expectations stating that each candidate and parent understands what is asked of them.
